SUMMARY

UI/UX developer with 2 years of hands-on experience building responsive, accessible, user-facing web applications using HTML5, CSS3, SCSS, JavaScript, and currently working on a React project. Experienced in translating Figma designs and wireframes into pixel-perfect, cross-browser compatible interfaces, collaborating with development teams through code reviews, and using Git for version control. A strong design background adds an eye for usability, accessibility, and performance.

TECHNICAL SKILLS

- **Front-End Development**: HTML5, CSS3, SCSS, JavaScript, Bootstrap,React and Angular (working knowledge)
- **UI Practices**: Component-based UI development, responsive/mobile-first design, accessibility, cross-browser compatibility, usability testing
- **Version Control:** Git & GitHub
- **Design & Prototyping:** Figma, Photoshop, Canva, Wireframing, Prototyping, Client Requirement Analysis
- **WordPress & CMS:** WordPress, Elementor page builder, theme customization, site updates & maintenance
- **Other:** PHP (basics), cPanel & hosting management, AI-assisted development

EXPERIENCE

Aatoon Solutions Dec 2024 - Till Date

Jr. UI UX Developer *Cochin Infopark, India*

- Working on a React project, building component-based UI features and pages with the support of AI-assisted development tools and team code reviews.
- Translated Figma designs and wireframes into responsive, accessible, pixel-perfect interfaces using HTML5, CSS3, SCSS, Bootstrap, Angular, and Elementor, ensuring brand consistency and mobile responsiveness.
- Participated in code reviews and team discussions to troubleshoot issues and ensure cross-browser compatibility.
- Tested sites and designs with real users and iterated based on feedback to improve usability and performance.
- Created wireframes, homepage concepts, and visual assets (logos, posters) matching client brand identity.

PROJECTS

Web Application | *Figma, Photoshop, HTML5, CSS3, SCSS, Bootstrap, Angular, Git*

- Designed web pages in Figma and converted 75+ application pages into responsive HTML/CSS layouts.
- Studied similar websites and apps to guide design decisions and follow common usability practices.
- Ensured pixel-perfect, accessible, and cross-browser compatible frontend implementation.
- Collaborated with the Angular team to integrate templates and optimize performance.

Websites | *Figma, Photoshop, WordPress, Elementor, CSS3, SCSS*

- Designed selected pages and full website interfaces in Figma for different client projects.
- Converted 75+ design pages into fully responsive WordPress websites using Elementor.
- Customized CSS/SCSS stylesheets to match designs closely and keep the site consistent across devices.
- Improved site responsiveness and performance, and handed off work smoothly to content and development teams.

Multi-Client Homepage Design Projects | *Figma, Photoshop*

- Designed 20+ homepage layouts for client proposals across tech, energy, lifestyle, and legal services.
- Created high-fidelity UI designs in Figma with clean layouts, matching each client's brand and audience.
- Shared design concepts with clients, collected feedback, and refined layouts for better usability, with several concepts shortlisted for client proposals.
- Applied good design practices for accessibility, visual hierarchy, and responsive layouts.

Logo & Poster Design | *Figma, Photoshop*

- Designed logo concepts for clients, delivering polished final versions aligned with their brand identity.
- Created engaging digital and print posters for various events and social media campaigns to boost client visibility.
- Worked closely with clients to gather feedback and iterate on designs until final approval.

EDUCATION

Ponjesly College of Engineering 2019-2023

BE | CGPA:8.63 *Nagercoil, Tamil Nadu*

CERTIFICATE

Full stack Development Internship Aug 2024

Scope India with a support of Suffix E Solutions
